

FOREWORD

I am most grateful for the opportunity to provide a message in this book which contains much good news.

The Eastern Cape National Senior Certificate (NSC) Class of 2017 has made us proud. These Grade 12 learners took advantage of the many opportunities afforded to them to achieve success.

In particular, the following opportunities were provided to all learners in the province:

1. A book on Tips for Success in the NSC Examinations
2. Textbooks and study guides
3. Past examination papers
4. Extra lessons on radio and telematics
5. Extra lessons after school and during weekends and holidays.

I want to thank most sincerely our hard-working teachers and principals who provided support to the Grade 12 learners throughout the year. Their dedication and commitment is highly valued.

I also want to thank parents and communities for all they have done to support the learners in many different ways.

As a result of these efforts, the pass rate of the Eastern Cape has improved for the second year in a row, In 2016 the pass rate improved from 56,8% in 2015 by 2,5% to 59,3% and in 2017 the pass rate rose by a creditable 5,7% to 65%. This steady improvement provides the foundation on which to build our programmes to reach 70% in the near future.

Not only did the pass rate improve but the pass rate for Bachelors study increased from 17,6% in 2015 to 18,9% in 2016 and to 22,7% in 2017. This 5% increase over two years indicates that the quality of teaching and learning is also improving in the Eastern Cape.

Another indicator of quality is the improved pass rates in high enrolment subjects. In particular, the number of learners and the pass rate for Mathematics and Physical Sciences has increased. In 2017 the Eastern Cape had the highest number of passes

Subject	No passing in 2015	No passing in 2016	No passing in 2017	% pass in 2015	% pass in 2016	% pass in 2017
Mathematics	7,596	8,240	8,472	33.4	34.8	40.7
Physical Sciences	6,903	7,828	8,301	43.4	48.1	57.5

I am very pleased that each of our 12 new districts was able to support our learners. We must remember that the new re-aligned districts were only established in April 2017. Despite this, all the officials in the districts worked tirelessly to ensure that the grade 12 learners achieved success. In the NSC 2017, two districts achieved over 70% and another four achieved over 65%. Only two districts achieved under 60%. We will redouble our efforts to support all districts in 2018 and beyond.

We also saw an increase in the number of schools with over 80% pass rates and a decrease in the number of schools under 60% pass rates.

I wish to send my special gratitude to the entire examination family who worked tirelessly to ensure that the administration of examinations in the province is credible and incident free. It is because of the work of these many gallant men and women who work in examinations in this province. I felt very proud when Umalusi approved the NSC Grade 12 examinations of 2017, declaring them credible.

The chairperson of Umalusi Council Prof Volmink endorsed the 2017 NSC Grade 12 by ambiguously indicating that, as Umalusi they were pleased to report that based on the evidence presented to Umalusi by the Department of Basic Education, the 2017 National Senior Certificate examinations were largely incident-free with a few minor disruptions experienced in some parts of the country. This attests to the success of the rigid measures put in place by DBE to ensure fool-proof and incident-free examinations. They further commended the Department of Basic Education and Provincial Departments of Education for working tirelessly to achieve this goal. While irregularities occur in all examinations/assessments, the South African public can rest assured that the examination system in South Africa has mechanisms to manage irregularities, to avoid lapses in the credibility of examinations.

The gains that we have made as Eastern Cape Province are highly appreciated and commendable. They can be attributed to the formidable leadership provided by the HOD, the SLMC and Top management of the Department. I wish to also thank the entire education family from classroom level to head office, as well as all the stakeholders, such as unions, parent formations and the business sector who made it their responsibility to 'walk the talk' and practically make education a societal matter.

The next few months will be very busy ones for all of us trying to sustain the upward trajectory we have started from 2016 through our *Education Transformation Plan*. As we work to strengthen the gains and pushing for more positive results, all eyes shall be on us. We are not trying to impress the world but all we do is to create strong foundational systems for the bright future of the thousands of Eastern Cape learners. The words of the first president of democratic South Africa Mr Nelson Mandela that, "Education is the most powerful weapon which you can use to change the world" will always remain the heartbeat of the service we offer as the Department of Education.

I have asked the ECDOE officials to ensure that detailed analysis of the results for Grade 12 is undertaken and that plans are in place to support the NSC Class of 2018 by the end of January 2018. We have also attached a summary of provincial learner performance results from Grade 1 to 11 for your information as well as a planning tool.

I wish to reiterate what I said last year that, families and parents place in our hands what they cherish most, on which their legitimate hopes and aspirations are hinged - their children. We must not by any measure take for granted the value we add into the lives of these children and their families if they succeed, and the pain and chaos we create in their lives and the lives and their families once they do not make it in their educational journey. We dare not fail them.

Thank you.

Hon Mandla Makuphula
MEC FOR EDUCATION

Preface by the Head: Education

It gives me great pleasure to congratulate the Grade 12 Class of 2017 for the sterling academic work achieved. They have made us proud and indeed proved that hard-work breeds success. Most of our schools last year were largely characterized by order and discipline among learners which is commendable. Of paramount importance in the schooling sector is that discipline is the foundation for success. Further, this class of 2017 has heeded our call as the department that teaching and learning cannot occur in an environment that is lackadaisical, unpredictable and not directed towards optimising quality classroom time. I sincerely thank you for realizing that.

Heartfelt gratitude is extended generally to all stakeholders in Education, parents, school principals and particularly our dear educators for understanding and demonstrating their centrality in teaching and learning situation in class. Confirming the centrality of a teacher in the didactic situation Haim Ginnot, (1972) claims thus: *“I’ve come to a frightening conclusion. I am the decisive element in the classroom. It is my personal approach that creates the climate. It is my daily mood that makes the weather. As a teacher, I possess tremendous power to make a child’s life miserable or joyous. I can be a tool of torture or an instrument of inspiration. I can humiliate or humour. Hurt or heal. In all situations, it is my response that decides whether a crisis will be escalated or de-escalated and a child humanized or dehumanized.”*

On behalf of the department, I sincerely thank the high degree of professionalism demonstrated by educators in their daily work. Professional educators have a prominent level of both abstraction and commitment. They are committed to always improve learner performance at any given moment whenever they teach their classes. To them learners’ achievement is always a priority in their operations. Professionalism also enables an educator to deliver quality teaching services in an ethical manner, producing good learner results annually.

Above all our key performance areas in 2017, we have prioritized implementation of plans on effective teaching and learning activities in class and monitoring thereof. Indeed this priority is the cornerstone in improving learner performance in our system of education. Essentially, it is worth noting that ***when you act on your priority, you’ll automatically go out of balance, giving more time to one thing over another*** (Keller and Papasan 2012:82). The said priority was coupled with a fundamental paradigm shift achieved, in doing away with planning syndrome that does not translate into implementation of plans. This is something which for years has always been the weakness of the system. We have successfully shifted to implementation paradigm against the widespread practice by some education practitioners in our system who are still ***superior planners and inferior doers*** (Goldsmith & Reiter, 2015:62).

Another positive aspect realized was forced integration of curriculum work among chief directorates and thereby destroying the silo mentality which militates against good learner performance.

Among the priorities of the Department in 2017, focus was mainly of the following interventions:

- Monitoring and supervision of learners in the extra tuition programmes which has assisted them to learn with comprehension;
- Relevant and targeted teacher development on areas that are subject specific;
- Introduction of Mathematics and Science intervention programme which started from March 2017, especially in the rural and far flanged districts;
- Accountability sessions of the Chief Directorates conducted by the Superintendent General to assess quarterly work achieved. These sessions have afforded the department to continue providing the necessary and much needed support to districts and learners in schools;
- Executive leadership of the department and the Hon MEC conducting road shows - dealing with impediments to effective teaching and learning as well as administering consequence management to principals of underperforming schools in terms of the South African Schools Act 1996;
- Continuous and vigorous revision of previous years question papers and the internal ones to expose learners to diverse types of questions normally set during examinations, including those with higher

cognitive demand. This invariably has prepared our learners for the examinations they sat for in 2017 academic year; and

- Increased level of e-learning in our schools with special focus on provisioning of educators with laptops and training on ICT programmes thereof.

Additionally, the four principles that underpinned our departmental operations in 2017 have indeed added value in improving performance levels of both officials (educators and non-educators) and learners. These principles are:

- Communications;
- Performance management;
- Accountability; and
- Consequence management.

Grade 12 results of 2017 have improved from 59.3% in 2016 to 65% in 2017. This means that the Province has improved its pass rate by 5.7%. This is indeed a significant improvement.

- The Top performing District in the Province is Nelson Mandela with an average of 72,6%.
- Of our 12 districts in the Department, 10 of them have performed with an average from 60 % and 72,6%.
- The number of Bachelor pass rate has increased from 18.9% learners in 2016 to 22.7% learners in 2017.

A special message to the 2017 class of Grade 12 is that, those who are on their way to tertiary education level, we wish you well in your future studies. Wherever you are, remember the issue of making learning a priority above all other activities, knowing fully well that there is no limit in high one can achieve in life. To those who unfortunately could not make it in 2017, they must know that the department has created a second chance for you to complete your academic programme. Therefore, you must grab and use it immediately with your full strength. This programme is premised from the wise words of Dr Nelson Mandela who once said ***the greatest glory in living lies not in never falling but in rising every time we fall.***

The departmental priorities for 2018 is to strengthen:

- Implementation of Education System Transformation Plan. Importantly is that 2018 is the final year of implementing this plan, which also requires evaluation and review for 2019 onwards.
- Continuous protection of tuition time in all institutions.
- Partnership with business community and other stakeholders for focused interventions in schools.
- Monitoring the implementation of National Strategy for Learner Attainment (NSLA) and revised Provincial Learner Attainment Improvement Strategy (LAIS) plan at school and Circuit levels.
- Focused and sequenced teacher development activities meant to capacitate educators for effective teaching of learners in their respective schools as informed by the policies at our disposal.

In conclusion, I want to highlight the fact that in 2018, the department continues strengthening teaching and learning in all schools from Grade R – 12 being guided by the said plans which are at our disposal.

As per the instruction of the MEC, I have directed the ECDOE officials to ensure that detailed analysis of the results for Grade 12 is undertaken and that plans are in place to support the NSC Class of 2018 by the end of January 2018. We have also attached a summary of provincial learner performance results from Grade 1 to 11 for your information as well as a planning tool.

I further implore all the education community to continue supporting the implementing and monitoring of teaching and learning activities or programmes in all schools within the framework of Quality Learning and Teaching Campaign.

SUPERINTENDENT GENERAL

Themba Kojana

INTRODUCTION

The 2017 Grade 12 class is the fourth cohort to write the National Senior Certificate (NSC) examination under the auspices of the Curriculum and Assessment Policy Statement (CAPS) in the Republic of South Africa. The National Senior Certificate Examinations (NSC) remains one of the most important indicators of the performance of the education system in the country.

The Department of Education in the Eastern Cape has embarked on a number of sustainable intervention programmes in our schools to ensure that our schools are turned into schools that work and ultimately become the centres of excellence. This has proven to be very elusive in the last 20 years. The Department has since 2016 implemented a turnaround strategy which is called Education Transformation Plan. The year 2017 academic year was the second year of its implementation.

Among the strategies that have been introduced by the Department of Basic Education (DBE) is the Education Sector Plan – Action Plan 2019 towards schooling 2030. The objective of this plan is to improve performance across the system. The supplementary hybrid material in the form of *Mind the Gap* study guides for Grade 12 learners was issued by Department of Basic Education. These study guides were attempts by DBE to improve the academic performance of Grade 12 candidates in the National Senior Certificate (NSC) examinations.

The Eastern Cape Education Department has worked tirelessly in 2017 to ensure that teachers and learners achieve the targeted outcome in the Province. The Province also devised various strategies to ensure that there was a complete turnaround in learner performance across the schooling system. The Province implemented its second year of the *Education System Transformation Plan: 2016 -2018* which is aimed at:

- Transforming the overall education system;
- Creating strong linkages between Secondary Schools and its feeder schools; and
- Providing at school level an appropriate package of support to viable secondary schools in Quintile 1 to 3 while prioritizing the rationalization of unviable ones with an intention of maximizing opportunities of Eastern Cape learners achieving a pass in the National Senior Certificate, thus improving their life chances of becoming productive members of society.

The Superintendent- General, further strengthened the above objectives by developing the following three pillars that are driving the implementation of the Departmental transformation plan:

- Effective communication at all levels.
- Performance Management.
- Strengthen accountability.

In achieving the above listed aims, the Provincial Department of Education embarked on a number of support programmes for both teachers and learners, for example, content gap workshops, literature workshops, study tips booklet, curriculum coverage poster etc.

In addition to the above mentioned strategies, June Common examinations for schools that performed below 60% in 2016 NSC examinations for the following subjects were provincially set, printed and distributed to schools:

- Accounting
- Agricultural Sciences
- Business Studies
- Economics
- Geography
- History
- Mathematics
- Mathematical Literacy
- Life Sciences and
- Physical Sciences.

These examinations were written from 06 to 23 June 2017. The question by question qualitative and quantitative analysis of the June examination results as well as the moderation of learner scripts was done with an aim of giving feedback to schools as well as ensuring that there is focused monitoring and support by both the Provincial and District officials.

Mind the Gap study guides for the following 9 for the high enrollment subjects were printed and distributed to schools by the Province:

- Accounting
- Agricultural Sciences
- Business Studies
- Economics
- Geography
- Life Sciences
- Mathematics
- Mathematical Literacy
- Physical Sciences

Use of supplementary learning material provided by both the Provincial Department of Education and the Department of Basic Education (DBE) during tuition holiday programmes (autumn, winter and spring classes) were fully utilized wherein key problematic identified topics were addressed.

It is worth noting, that attempts by the Eastern Cape Department of Education to come up with various learner outcomes improvement strategies have steadily yielded the desired outcomes, however, there is always room for improvement. In its struggle to promote/implement changes that lead to sustainable performance standards that are success oriented, the province has not been deterred from its commitment to ensure that it finally achieves its goal.

SCHOOL-BASED ASSESSMENT

In addition to the formal examination papers written at the end of the year, candidates are also expected to complete a variety of assessment tasks at school level. Requirements are spelt out in the policy document, *National Protocol on Assessment* and are meant to allow the candidates to work consistently throughout their Grade 12 year and to be rewarded by accumulating marks towards their final result. These assessment tasks cover a wide variety of activities.

All these components are put together to produce the candidate's School Based Assessment mark (SBA) which constitutes 25% of the final mark. For Life Orientation, the larger component of the final promotion mark is school based and external assessment which is referred to a Common Assessment Task (CAT) constitute 20%. The SBA must receive continuous attention throughout the year. Conversely, a candidate who does not work consistently throughout the year but expects to redeem his or her prospects in the final examination shall find it challenging to attain a good result. SBA tasks need to be taken seriously.

The absence of a School-Based Assessment and/or a Practical Assessment Task mark in any subject, without a valid reason, result in the candidate, registered for that subject, receiving an incomplete result. The candidate will be given three months before the commencement of the supplementary examination to submit outstanding work or present him/herself for School-Based Assessment and/or a Practical Assessment Task. Should the candidate fail to fulfill the outstanding School-Based Assessment and/or Practical Assessment Task requirements, such a candidate will not be resulted and he or she must repeat the subject and redo the School-Based Assessment and/or Practical Assessment Task component for that subject.

In the event of a learner not complying with the requirements of School-Based Assessment and/or Practical Assessment Task in any subject in Grades R-12, but where a valid reason is provided:

- He or she may be granted another opportunity to be assessed in the assigned tasks, based on a decision by the Head of the assessment body.
- The learner must, within three weeks before the commencement of the final end-of-year examination of the relevant grade submit outstanding work or present himself or herself for School-Based Assessment and/or Practical Assessment Task. Should the learner fail to fulfil the outstanding School-Based Assessment and/or Practical Assessment Task Assessment requirements, he or she, registered for that subject will receive an incomplete result.

PROCESSES IMPLEMENTED TO ENSURE COMPLIANCE WITH SCHOOL BASED ASSESSMENT (SBA) REQUIREMENTS IN 2017

The following processes were put in place to ensure compliance with School Based Assessment (SBA) requirements:

- The schools, whose SBA marks were rejected by Umalusi during the standardisation process were informed and made to account and indicate strategies that they will use to avoid the recurrence of the situation.
- Monitoring of SBA moderation at all levels by Curriculum FET programme, Examinations and Assessment Chief Directorate, Department of Basic Education and Umalusi.

VERIFICATION OF IMPLEMENTATION OF SCHOOL BASED ASSESSMENT (SBA) AND ITS MODERATION

Verification and monitoring of implementation of School Based Assessment (SBA) is a mandate by the Department of Basic Education to all Provinces. The SBA mark must undergo all processes of moderation and verification to ensure that it is valid, reliable and authentic. To ensure that all SBA moderation levels are observed, SBA verification programme was developed, which focused on on-site visits to verify implementation and moderation of SBA at the District, cluster and school levels. A sample of Districts and schools were monitored and verified.

DBE moderators visited the Province to moderate NSC Grade 12 SBA. This was done on 2 – 6 July and 3 – 6 October 2017. This included the quality assurance of Practical Assessment Tasks (PATs) which took place on 11 – 21 October 2017 by DBE. Umalusi conducted SBA moderation on 4 – 5 August and 5 – 6 October 2017. In all occasions this was a great success. Sampling was done in two districts (King Williams Town and Butterworth) where selected subjects were moderated in ten (10) schools per district. On 2-6 October 2017 the Provincial Centralized SBA moderation was successfully conducted. A sample of 22 subjects from a sampled number of schools, was moderated during this session in two moderation centres. Analysis of the performance of learners for June common tests and Trial examinations in high enrolment subjects was done.

NON-PROVISION OF LEARNER AND EDUCATOR EVIDENCE TO BACK UP SBA MARKS

All educators and candidates are required to keep complete records of all assessments that take place. This does not mean that bulky folders are required to be kept, but during moderation, it is a requirement that tangible evidence of learner performance can be produced to substantiate the grades awarded to candidates. It is often the case that when evidence of performance is required; schools, educators and candidates are unable to produce it. This leads to an undermining of the credibility of the School-Based Assessment mark and to suspicions that educators have not completed learning programmes and that the marks provided are a mere guess work. This can have severe consequences for all candidates in the Province as UMALUSI is entitled not to approve results that are questionable.

ADMINISTRATION OF 2017 (NSC) EXAMINATIONS

REGISTRATION OF CANDIDATES AND EXAMINATION CENTRES

The Province has a total number of 82 257 full time candidates registered for 2017 National Senior Certificate examinations in 927 examination centres.

The figures in Table 1.1 and Table 1.2 below provide a comparison of the number of candidates who have entered for the National Senior Certificate (NSC) examinations in the Province this year, 2017 and previous 5 years. It is worth noting that the Eastern Cape has the fourth largest number of candidates for the NSC after Kwa Zulu Natal, Limpopo and Gauteng provinces.

TABLE 1.1

NUMBER OF FULL-TIME CANDIDATES ENROLLED FOR NSC: 2012-2017

Year	Number Full-time	Increase / Decrease
2012	69 427	1358
2013	74 980	5 553
2014	69 294	-5 686
2015	91 810	22 516
2016	92 748	938
2017	82 257	-10 491

The number of candidates has decreased in 2017 when compared to 2016.

TABLE 1.2

NUMBER OF EXAMINATION CENTRES: 2012- 2017

Year	Number of Centres	Increase / Decrease
2012	926	8
2013	926	0
2014	923	-3
2015	924	01
2016	926	02
2017	927	01

The number of centres has increased in 2017 when compared to 2016 due to rationalization and new schools offering Grade 12 for the first time.

The number of candidates has decreased compared to 92 748 candidates that were registered in 2016 in 926 examination centres. This decrease in the number of registered candidates is due to the strict implementation of the progression policy as promulgated by the Minister of Basic Education through Government Gazette No. 9886 of 28 December 2012, as well as the choice to opt for Multiple Examination opportunities (MEO).

The Province registered a total of 10 937 progressed learners in 2017 which has declined when compared to 14 289 learners that were progressed in 2016. This decline can be attributed to strict adherence by schools to the following set criteria:

- Learners must have failed to satisfy the promotion requirements of either Grade 10 or Grade 11, and repeated either Grade 10 or Grade 11;
- The learner must have passed LoLT and any other 3 of the 7 subjects offered (Life Orientation included). If the HL is the LoLT of the learner, for the purpose of progression only, the learner must obtain 30% so as to ensure equivalence with the pass requirements for the First Additional Language;

- The learner must have attended school on a regular basis. Absenteeism in excess of 20 days, without a valid reason, will disqualify the learner from being progressed;
- The learner must have complied with the prescribed SBA requirements for that academic year.

The progressed learners were also allowed by the Minister to choose an option of Multiple Examination Opportunities (MEO) wherein, a learner can write less than six subjects and write the remaining subjects in the following year.

MONITORING OF THE WRITING OF THE EXAMINATIONS

A total number of 135 question papers (both English and Afrikaans versions for content subjects) were printed and distributed to 927 full time schools and 119 part time centres.

The province intensified monitoring of the writing of the examinations in 2017 by deploying 50 provincial and 837 district monitors across all 23 districts, including nodal and distribution points. The examination centres were audited and categorized into 117 High, 154 Medium and 733 Low risk examination centres as follows:

- **High Risk Centres** : Examination centres which have previous cases of group copying and repeated cases of irregularities.
- **Medium Risk Centres** : Examination centres with cases of minor administrative irregularities.
- **Low Risk Centres** : Examination centres without previous cases of irregularities.

MARKING PROCESSES

The Province has a mandate to ensure that the conduct, administration and management of the marking processes are uniformly applied in all marking centres to ensure credibility.

In 2017, 5 270 markers were appointed to mark NSC examination scripts compared to 5 536 markers who were appointed in 2016. This decline is as a result of an increase in the number of learners who opted for Multiple Examination Opportunities (MEO) and did not write all seven subjects.

All marking personnel that were appointed to be part of the marking process were trained before the commencement of marking. Chief markers and moderators were trained on 21 and 22 September 2017. They were further trained by Department of Basic Education (DBE) and marking guidelines were discussed to make up standardized guidelines to be used across all provinces. During this training, all chief markers and moderators were authorized that their performance was within the prescribed tolerance range and would thus be able to manage their subjects/papers at the marking centres.

In 2017, nineteen (19) marking centres were utilized in hosting the marking of Grade 12 NSC examination scripts.

MANAGEMENT OF IRREGULARITIES

Nineteen (19) Irregularities Investigators were appointed and were trained on 21 November 2017; on the procedures for managing and handling irregularities discovered at marking centres. On 21 and 22 September 2017; Chief Markers and Marking Moderators were also thoroughly trained by the Provincial Irregularities Office on how to identify, manage and handle irregularities. This training focused on critical areas that could lead to irregularities, such as registration related issues; script control measures; monitoring procedures and handling of concessions. It was also noted that most of administrative errors increase in 2016 due to poor script and marksheet control management. All district officials that are involved in the administration of examinations from 23 districts were trained on script control management.

In 2017, the province has drastically reduced the number of irregularities. This reduction of irregularities is attributed to the charging of implicated Chief Invigilators and Invigilators as well as sanctions for affected learners who were involved in 2014 group copying. There were administrative errors or omissions such as late start during examinations due to service delivery protests and floods; candidates that wrote incorrect subject levels, as well as behavioural offences.

Serious irregularities in 2017 involved thirteen (12) learners who were caught up with crib notes and electronic devices in the examination rooms; suspected copying/assistance by invigilator involving twenty-nine (29) learners from two districts. The results of these candidates are blocked in the system (withheld) pending the completion of investigation which will involve charging and conduct of disciplinary hearings if officials are found guilty.

CHALLENGES

NON ADHERENCE TO POLICIES AND LACK OF CONSEQUENCE MANAGEMENT

Policies are only as good as the paper they are written on if they are not adhered to. If, for example, unauthorised persons are allowed free access into restricted areas, then the policy on security of examination materials becomes unenforceable and ignored, which could lead to a major breakdown. Similarly, if staff members charged with implementing policy either choose to ignore policy or do not know the policy, their actions become subject to judicial review, which may be both unnecessary and wasteful. Implementation of policies that impact on the credibility of the examination processes such as, promotion and progression policy, subject changes, invigilation and script control, must remain a priority to all staff members within the Department of Education and consequence management must be instituted against the culprits.

REQUIREMENTS FOR A NATIONAL SENIOR CERTIFICATE

In order to obtain a National Senior Certificate the learner must:

- Offer seven approved subjects and provide full evidence of School Based Assessment for each subject.
- Complete the programme requirements for Grades 10, 11 and 12 separately and obtain distinct outcomes and associated standards for all the grades.
- Comply with internal assessment requirements for Grades 10, 11 and 12; and the external assessment requirements of Grade 12.
- Achieve at least 40% in three subjects, one of which must be an official language at Home Language level.
- Must achieve at least 30% in three other subjects.
- Provide full evidence of the SBA component in the subject failed.
- The table below shows the minimum requirement to obtain National Senior Certificate.

Promotion requirements	Percentage required
Subject 1: Home Language	40%
Subject 2	40%
Subject 3	40%
Subject 4	30%
Subject 5	30%
Subject 6	30%
Subject 7	0 - 29% (Proof of SBA in the failed subject)

RATING SCALE

A rating scale is used to summarise learner's achievement.

ACHIEVEMENT LEVEL	ACHIEVEMENT DESCRIPTOR	MARKS %
7	Outstanding Achievement	80-100
6	Meritorious Achievement	70-79
5	Substantial Achievement	60-69
4	Adequate Achievement	50-59
3	Moderate Achievement	40-49
2	Elementary Achievement	30-39
1	Not Achieved	0-29

MINIMUM ADMISSION REQUIREMENTS TO HIGHER EDUCATION

It must be emphasized that the minimum requirements for admission to Higher Educations are set by Higher Education Institutions (HEIs). HEIs are at liberty to raise these requirements at any time, depending on the number of applicants they receive. They are also at liberty to set their own entrance and placement tests and to set higher requirements for entrance into particular courses or fields of study. Some HEIs do not recognize particular subjects for selection processes into certain study areas. For example, Mathematical Literacy is not recognized in some HEIs for entrance into courses of study involving Engineering and Sciences. Candidates should consult the HEI of their choice to ascertain entrance requirements.

• Higher Certificate

The minimum admission requirement is a National Senior Certificate (NSC) as certified by Umalusi. Institutional and Programme needs may require appropriate combinations of recognized NSC Subjects and levels of achievements.

• Diploma

The minimum admission requirement is a National Senior Certificate (NSC) as certified by Umalusi with an achievement rating of:

- **4 x 40%- 49% or better (4 x Level 3 including Home Language)**

Institutional and Programme needs may require appropriate combinations of recognized 20 credit NSC Subjects and levels of achievements.

• Bachelor's Degree

The minimum admission requirement is a National Senior Certificate (NSC) as certified by Umalusi with an achievement rating of:

- **4X50%-59% or better (4 x Level 4s Including Home Language)**

Institutional and Programme needs may require appropriate combinations of recognized 20 credit NSC Subjects (commonly known as the **designated subjects**) and levels of achievements.

CONCLUSION

The mandate of the Examinations and Assessment Directorate is to deliver a credible, effective, efficient and error free examination and assessment service to its users. This, despite the many challenges the Directorate faces, it has managed to continue to deliver credible 2017 NSC examination and will no doubt, continue to provide zero defect examinations in the years to come.

Working together we can achieve more.
